

Paper books VS e-books

VS

BOOKS

Paper books

- We all know what paper books are, in next few slides we will see good and bad things about paper books.
- The oldest books were paper books. First they were made by hand. After printer was invented books started to print.

Reading

Good things about paper books

- First good thing about paper books is that they can read easier, there is no need to search on internet when you have it on paper
- Second good thing is that with e-books we have to be in front of the screens while paper books are on paper.
- The most of the people love more paper books.

Books sales revenue in 2019
totaled \$26 billion

Bad things about paper books

- First bad thing about paper books is that they can easily be tear up.
- Second bad thing is, the paper books are made of paper and paper was made of wood so If we want to stop losing forest then we need to stop with reading paper books.
- And the last in school student have paper books and they are pretty difficult in students bag.Sometimes they are over 12kg.

E-books

- ❖ Something new, something better and that is... Ofcourse e-books.They do pretty good job.As every day pass this is how science devolps.
- ❖ In next few slides we will learn good and bad things about e-books.

Good things about e-books

- ❖ First good thing about e-books is that, you can easily transport them, you only need phone or tablet.
- ❖ Second good thing about e-books is that when we read paper books we know that some forest was demolished because of book. When we read e-book we know that is just internet.
- ❖ Part of the population love more e-books because they are more efficient.

E-BOOKS

Bad things about e-books

- ❖ First bad thing about e-books is that if we read it we are in front of the screen, and we all know that too much screen can be bad for our eyes.
- ❖ Second bad thing about e-books is that they are smaller and more expensive, and they need electricity.

E-books

Paper books VS E-books

VS

So to submit, we talked about paper books and e-books. I don't know which is better, my personal thinking is that the e-books are better.

**Bye to next
presentation**
